By **Joan Berzoff, Phyllis R. Silverman** : **Living with Dying** death is the cessation of all biological functions that

sustain a living organism phenomena which commonly bring about death include senescence predation oct 18 2010nbsp;throughout my years of working with the dying and the bereaved i have noticed commonly shared experiences that remain beyond our ability to explain and Living with Dying:

4 of 4 review helpful Awkward size of book By Bonnie B I was required to purchase this book for an end of life class for my masters program in social work I learned a great deal from it and keep it as a reference for my practice However picky this may seem I must comment on the format of the book it s small size and print size I struggle to find a comfortable way to read this book It is very heavy and small can t be The first resource on end of life care for healthcare practitioners who work with the terminally ill and their families Living with Dying begins with the narratives of five healthcare professionals who when faced with overwhelming personal losses altered their clinical practices and philosophies The book provides ways to ensure a respectful death for individuals families groups and communities and is organized around theoretical issues in loss grief and b Berzoff s and Silverman s text is a compendium of educational material uniquely edited to facilitate social workers understanding of how to think about talk with and practice caring for people with life limiting illness their caregivers and themselves It s
