By Robert P. Langlais, Craig S. Miller : Color Atlas of Common Oral Diseases hives also known as urticaria is a very common allergic skin condition most often due to antibodies in the bloodstream that recognize foreign substances see a picture of and learn about urticaria a type of skin condition in the emedicinehealth image collection gallery Color Atlas of Common Oral Diseases:

The Third Edition of this user friendly reference focuses on the diagnosis and treatment of oral manifestations of local or systemic diseases. It contains clear photographs on the clinical manifestations of oral diseases and is presented in an easy to navigate format. The concise presentation of oral pathologic conditions now includes an expansion in the self assessment section and continues its valuable features found in the glossary, self test, diagnosis and management.
