Surgery, 2e (MRCS Study Guides)

Clinical Cases and OSCEs in Surgery, 2e (MRCS Study Guides):

0 of 0 review helpful GREAT BOOK FOR SURGERY ROTATION AND BEYOND By Ali I found this book very helpful for surgical OSCEs you can find every possible OSCE case except cervical spine examination and digital rectal examination and it makes you prepared for the OSCE Also i found the questions at the end of each case very helpful and they boost your knowledge although some are above the level of a student but you will enjoy This book of over 140 cases is designed for candidates preparing for all surgical examinations whether at undergraduate postgraduate or exit examination level It will demystify and simplify the clinical assessment of surgical cases and provides invaluable advice on how to achieve success The text includes top tips acronyms and up to date summaries of current practice based on the authors' personal experience of surgical examinations Cases a About the Author Professor Marc Gladman MBBS DRCOG DFFP PhD MRCOG MRCS Eng FRCS Gen Surg is a Professor of Surgery at Blacktown Mount Druitt Hospitals in Sydney Australia and holds the position of Chair of Surgery at the School of Medicine of the University
