By Dr John Beumer III, Mark T. Marunick, Salvatore J. Esposito : Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide) Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related,

Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide):

0 of 0 review helpful Very well written and timely By Mary T Dooley This book has enough detail for a beginner in maxillofacial to be able to perform the prosthodontics procedures Have not read the whole book yet but a search of the internet revealed that a current text on this subject was sorely needed I have met the author many years in a course and am pleased that he took the time to write this 0 of 0 review The rehabilitation of patients with disabilities of the head and neck secondary to acquired and congenital defects continues to be a challenge Today it is possible to restore most patients to nearly normal form and function enabling them to lead useful and productive lives However successful outcomes require close interaction among many health care disciplines Given the recent advances in maxillofacial prosthetics and reconstructive surgery the pace of change in th This is a very good comprehensive text to have as a reference and has many excellent contributions from many well known authors The text can serve any dentist who might see a patient who has had or will have treatment with chemotherapy and radiation therapy a
