From Brand: Gaskell : Seminars in Child and Adolescent Psychiatry (College Seminars Series) the child cognitive behavioral therapy program at mass general provides state of the art cbt to children teens and young adults

with a range of emotional and psychiatry the department of psychiatry is one of the clinical departments within the college of medicine and provides a full range of education research and Seminars in Child and Adolescent Psychiatry (College Seminars Series):

1 of 1 review helpful A great companion for the psychiatric trainee By Anna This book deserves everyone of the five stars because 1 It is comprehensive for general issues in child psychiatry 2 It is written in very clear language even for people like me who's mother tongue is not English 3 It is very practical as it gives good clinical examples 4 It is fun to read because of the clinical examples 5 It is not the first volume to appear in the College Seminars series It is both a practical guide to help trainees and a study aid including case examples
