By Jamal J. Hoballah : Vascular Reconstructions: Anatomy, Exposures and Techniques obq1357 fixed angle implants are often used for fixation of distal femur fractures three commonly used implants implants as part of the rothman institutes joint replacement program one of the nations top programs alexander r vaccaro md phd specializing in spine orthopaedics Vascular Reconstructions: Anatomy, Exposures and Techniques:

This must have manual for surgical residents and vascular surgery trainees is copiously illustrated with more than 250 original line drawings The author presents in a step by step fashion the techniques for all common vascular reconstructions basics of exposure and access as well as invaluable technical pearls and tips The text provides the

surgical trainee with the opportunity to review and practice the necessary vascular reconstructions before entering the operating room. This is an enjoyable and refreshing read that certainly fills a gap in the current vascular atlas market. Doody's
