Study Guide to Child and Adolescent Psychiatry is a question and answer companion that allows you to evaluate your mastery of the subject matter as you progress through Dulcan's Textbook of Child and Adolescent Psychiatry. The Study Guide is made up of 332 questions divided into 65 individual quizzes of 5-10 questions each that correspond to chapters in the Textbook. Questions are followed by an Answer Guide that references relevant text including the page. This study guide does a solid job of providing well-written questions and answers that cover the major points in the textbook. The comprehensive nature of the answers is especially useful in fostering understanding. Christine J. Choe, MD
