forum for professionals young people and parents camhorguk Suicide in Children and Adolescents (Cambridge Child and Adolescent Psychiatry):

In an epoch when rates of death and illness among the young have steadily decreased in the face of medical progress the persistently high rates of youth suicide and suicide attempts around the world remain a tragic irony and a challenge to both our clinical practice and theoretical understanding How can these deaths be prevented Can they be anticipated Are there perceptible patterns of risk and vulnerability What role do families gender culture and biology play The strength of this volume lies in its breadth and depth It is intelligently arranged into chapters and conveniently indexed to enable clinicians and researchers to find their desired topics with ease It has the range of a textbook and should fit in well
